Includes items that are used, refurbished, demo, shop worn, one-of-a-kind, discontinued, surplus, misordered, repossessed, rental, found in shop or under a salesman's desk

January 2012

All items in this flyer are priced FOB Rapid City SD. All items are to be paid for at time of purchase. New items may be added to our web site, please check at [www.warnechemical.com](http://www.warnechemical.com). Warne Chemical & Equipment Co reserves the right to make changes in priced and/or description should an error be found. No warranty on used units and components (if works at our location).

## 1) 160-Gallon Sprayers

Two each, manufactured from new and excess inventory. 250 cc Briggs & Stratton Intec engine coupled to diaphragm pump, 22 gpm and 285 psi. No hose or handgun. **\$1,900 each**

2) Assembled to certify the Honda look-a-like Briggs & Stratton engine. 160-gallon tank, 127 cc Briggs & Stratton engine, diaphragm pump 150 psi and 22 gpm, skid mounted. No hose or handgun. **\$1,550**

## 3) PL855 Pro HD Plugger

30" aerator, self-propelled with hydrostatic drive, powered by a Honda GX200 engine, and new tines. **\$2,975**

## 4) Used Two Seasons

Monarch 3" cast iron pump with 9 hp Honda engine. **\$600**

## 5) Proto Type Sprayer

For larger UTV, Kubota, Gators, etc. 110-gallon low profile tank, 4 hp GX120 Honda engine with centrifugal pump, 24' breakaway boom, 6-gallon foam marker, and 3-section 12-volt solenoids. We put this unit together for larger turf areas and small crop fields. We used this unit for fall golf course spraying. Our evaluation is that the low profile tank does not completely drain when we lose priming with the centrifugal pump. Tank retains approximately three to five gallons. **\$2,900**
